### 2012: Key messages today

"Rieter has strengthened its **market position** in a challenging market environment and is on track with its investment program. Despite cyclically weaker **sales** and lower **profitability**, Rieter continues the policy of paying cash dividends – a **dividend of 2.50 CHF** per share has been proposed for 2012."

**Erwin Stoller** 

**Executive Chairman** 

### Rieter – Highlights 2012

#### Market position strengthened – investment program on track

# Market development

- Market environment improved slightly with stabilized positive spinning mills margins
- Indian market improved in the north, Turkey and other large markets improved slightly, China was still hesitant due to locked-in raw material prices
- Financing for projects in China and India remained an issue

# Strategic / operational

- Market position strenghtened in a challenging market product portfolio well positioned
- Sales in China increased y-o-y by 27% to 192.5 million CHF
- · Successful fairs in Turkey, China and India held
- New Comber E 80 and component innovations presented

# Investment program

- Program on track half-way milestones passed
- Expansion in Asia: Construction in Pune (IN) completed, Changzhou (CN) partly operational
- Airjet introduction ongoing
- Process improvements proceed along plan

#### **Financial**

- Sales decreased by 16% to 888.5 million CHF. Order intake with 839.7 million CHF decreased by 12% but showed increase in second half-year
- Lower EBIT margin of 3.8% of sales due to volume, strategic projects and product mix
- Net profit of 3.0% of sales leads to EPS of 6.40 CHF and a dividend proposal of 2.50 CHF out of reserves from capital contributions (dividend yield: 1.6%)

R&D expenditures	42.7	21.8	20.9	39.5
Capex (4)	81.6	57.3	24.3	57.3

(1) Including cancellations of 60 million CHF in 2012 (2011: 113 million CHF)

(2) Including strategic project costs of 25.3 million CHF in 2012

(3) Including gain from sale of assets of 17.6 million CHF (2011: 47.3 million CHF)

(4) Including investments for strategic projects of 51.6 million CHF

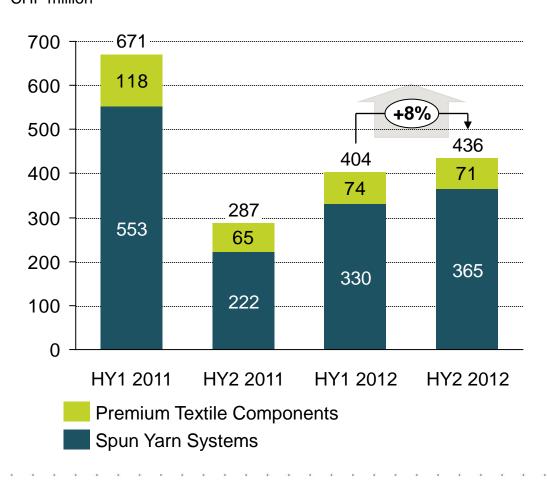

Results 2012 March 2013

## Orders by business group

#### 12% lower orders received than 2011, but HY2 up 8% versus HY1 2012

- Orders received included cancelations of 60 million CHF
- Decline in FY 2012 less pronounced at Spun Yarn Systems

SYS: -10% (local currency -11%)

PTC: -21% (local currency -20%)

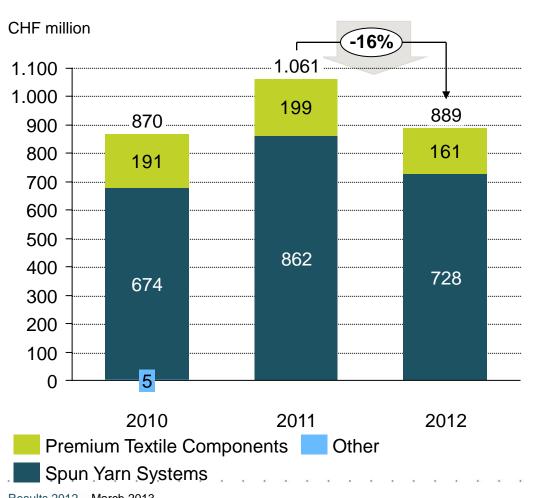

- Decrease at PTC mainly due to weaker demand from Chinese and Indian machinery manufacturers
- Order backlog at around 550 million CHF at year-end

Results 2012 March 2013 9

## Sales by business group

### Sales declining by 16% to 888.5 million CHF with lower second half-year 2012

Decline in both business groups:

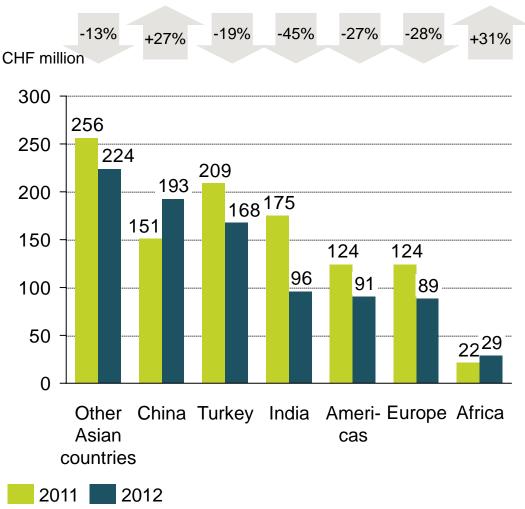

SYS: -16% (local currency -16%) PTC: -19% (local currency -18%)

- Downturn more pronounced in the second half of 2012
- Heterogeneous development across the regions business group Spun Yarn Systems with substantial increase in sales in China compared to the previous year

## Sales development by region

#### Sales increase in China helped to mitigate cyclical decline in sales

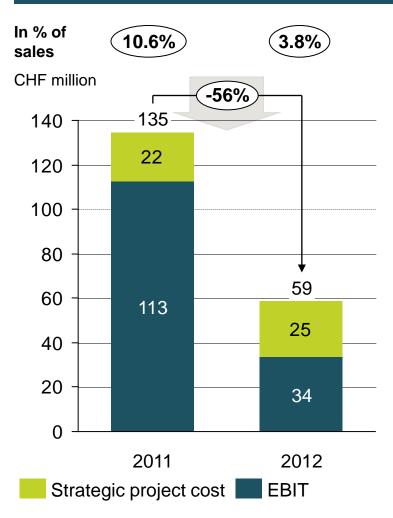

- Substantial increase in sales to China
- Share of sales to China increased to 21.7% (2011: 14.2%)
- Lower sales to main markets India and Turkey
- Share of sales to India decreased to 10.8% (2011: 16.5%)
- Continued increase of share of sales to Asia to 76.6% (2011: 74.6%)
- Overall, Rieter reinforced its market position in 2012

## **Operating result (EBIT)**

#### EBIT margin decreased to 3.8%

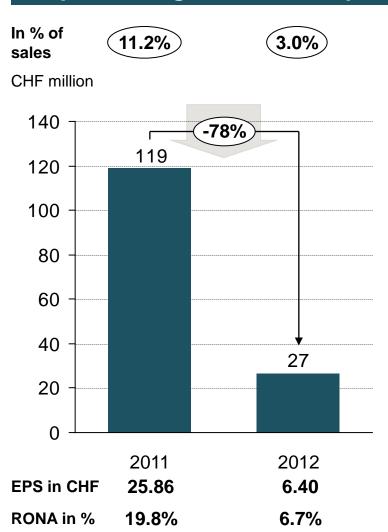

- EBIT decreased by 70% to 33.6 million CHF in 2012 (incl. Strategic projects cost: - 56%)
- Profitability mainly impacted by
  - Continued volume decrease in the profitable components business (PTC) as well as in the machine business (SYS)
  - Margin decrease in the machine business due to less demand for products with higher profitability and continued pricing pressure due to cycle and exchange rate (Swiss franc denominated sales)
- Continuation of investment program despite volume down-turn led to strategic project cost of 25.3 million CHF
- Disposal gain of 6.0 million CHF from sale of two Czech production sites

esults 2012 March 2013. 12

## Net profit (continued operations) and RONA

#### Net profit margin at 3.0% despite strong EBIT decrease

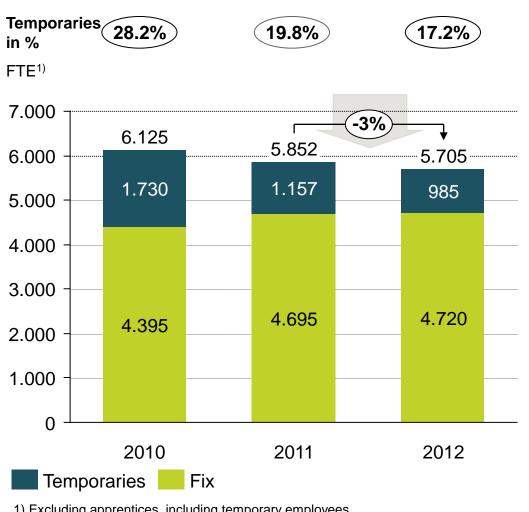

- Sale of LMW and LRT shares contributed 17.6 million CHF (2011: 47.3 million CHF) to net profit from continued operations
- Financial result mainly impacted by interest cost on 2015 bond
- Tax rate at 24.5%
- Earnings per share from continued operations decreased to 6.40 CHF
- Board of Directors proposes a dividend of 2.50 CHF per share out of the reserve from capital contributions (dividend yield of 1.6%)

## Changes in workforce

### Total workforce reduced by 3% through reduction in temporaries

- Decrease in sales has been followed by reduction of workforce in particular through significantly lower temporaries
- Disposal of Czech production facilities reduced depth of manufacturing and personnel
- Fix personnel build-up due to increase in China and India
- Hiring freeze initiated in second half year in 2011 for indirect personnel in Europe was ongoing in 2012

1) Excluding apprentices, including temporary employees

Results 2012 March 2013

#### **Balance sheet**

### Net liquidity decrease to 95.6 million CHF and equity ratio stable at 35%

Free cash flow	-32.3	79.5

- Negative free cash flow of -32.3 million CHF (2011: 79.5 million CHF)
- Further sale of LMW and LRT shares and divestment of Czech production facilities contributed further 35.0 million CHF to free cash flow
- Main impact on free cash flow from high investments due to investment program 2012 / 2013

Results 2012 March 2013. 18.

## Spun Yarn Systems 2012

#### Leading systems supplier in the spinning process

CHF million	2012	2011	2010
Order intake	695.0	775.0	1217.9
Sales	727.6	861.7	674.0
EBIT	30.5	81.2	42.4

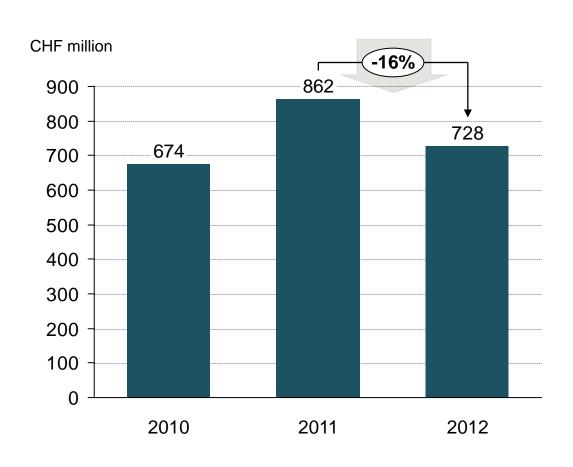

- Customers / regions: Spinning mills in Turkey, India, China, South East Asia, North and Latin America, Africa
- Market size: ~2,800 million CHF (2010)
- Product offering: Short staple spinning systems and machinery for natural and man-made fibers: Blowroom, Card, Drawframe, Comber, Flyer, Ring spin, Rotor spin, Compact spin, Airjet spin
- Global sales and service presence in all yarn producing countries through own sales force or agents with production facilities in Switzerland, Germany, Czech Republic, China and India
- Main competitors: Trützschler, Murata, OC Oerlikon, LMW, Jingwei,
- Growth drivers: Population and GDP growth drives demand in fibers and yarn; Trend to increasing yarn quality, fineness and automation; Replacement of existing installed capacity

esults 2012 March 2013 19

## Spun Yarn Systems: Sales

## Cyclical decrease of sales by 16%

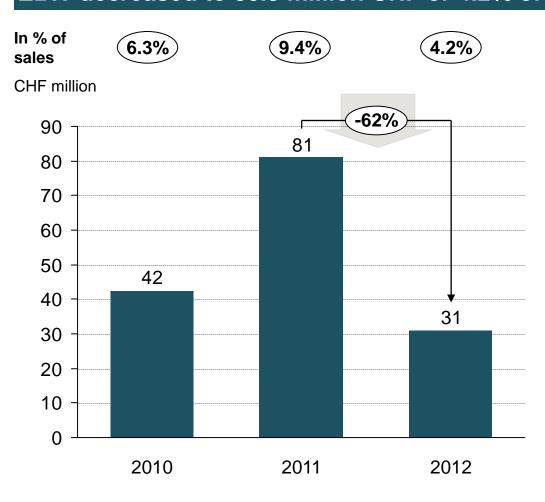

- Sales declined by 16% mainly in the second half-year due to
  - Lower order intake in the first semester
  - Postponement of deliveries into 2013

Results 2012 March 2013

## Spun Yarn Systems: Operating result (EBIT)

#### EBIT decreased to 30.5 million CHF or 4.2% of sales

- EBIT declined to 30.5 million CHF
- Main drivers for decline were lower volume, a product mix with less favorable margins and lower spare parts sales
- Additionally, majority of strategic project costs were charged to Spun Yarn Systems

esults 2012 March 2013. 21

## **Premium Textile Components 2012**

#### Leading supplier of premium textile components

Brands:
Brácker
Novibra
Suessen

CHF million	2012	2011	2010
Order intake	144.7	183.3	235.2
Sales	160.9	199.1	190.6

- Customers / regions: Spinning mills and OEMS (Rieter and third) in India, China, Turkey, Europe, South East Asia, North and Latin America, Africa
- Market size: ~1,100 million CHF (2010)
- Product offering: Durable and wear & tear components for short staple spinning machinery
- Global sales and service presence in all yarn and machinery producing countries mainly through agents with production facilities in Switzerland, EU, China, India
- Main competitors: Trützschler, Oerlikon OTC, various Indian and Chinese competitors
- Growth drivers: Population and GDP growth drives demand in fibers and yarn; Trend to increasing yarn quality and fineness and automation; Higher speeds

Results 2012 March 2013 22

## **Premium Textile Components: Sales**

#### Sales decrease mainly due to lower third-party demand

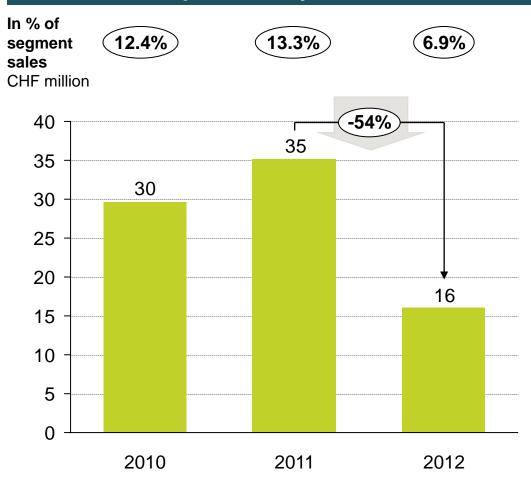

- Sales declined by 19% to 160.9 million CHF, as demand declined cyclically from textile machinery manufacturers and for retrofit business
- Business with spinning mills wear & tear parts developed more dynamically
- Segment sales including deliveries to Spun Yarn Systems – declined less by 12% to 232.3 million CHF

esults 2012 March 2013

## **Premium Textile Components: Operating result (EBIT)**

#### Volume-driven profitability decrease

- EBIT declined to 16.0 million CHF
- Main drivers for decline were lower volume, lower proportion of high-margin products and strategic project costs

## Rieter – Strategic intent

#### Strategic intent

#### Organic growth / growth by acquisitions

- Stay No. 1 in the import segment, become at least No. 2 in the local segment
- Strengthen position in China and India
- Close product gaps through innovation and external opportunities

#### **Innovation**

- Improve yarn quality
- Increase fiber yield / productivity
- Achieve cost and energy savings (for spinning mills)

#### Cycle management

- Maintain break-even focus
- Generate free cash flow throughout the cycle
- Keep key know-how

## Rieter – Strategy implementation organic growth

#### Continued intensity of strategy implementation in 2012 / 2013

 Expansion in Asia: Capacity expansion of production sites in Changzhou (China) and Pune (India)

Innovation: Driving innovation, product pipeline and continuation of localization of product portfolio

 Process improvements: Increased focus on operational excellence in all locations and process improvements in IT – supported global supply chain and administration Additional investments for 2012 / 2013: ~ 140 million CHF

In 2012:

51.6 million CHF capex 25.3 million CHF cost

## Rieter – progress investment program 2012 / 2013

#### Investment program on track – half-way milestones passed

#### 2012

- Inauguration of first stage of second plant in Changzhou (China)
  - Ramp-up of second

in Changzhou

2013

Completion of plant II

2014

- Construction of second plant in India
- plant in India

#### **Innovation**

- Airspinning machine (J 20) well received at ITMA Asia
- First J 20 full system operational at client
- Continued controlled market introduction

- **Process** improvements
- Improvements in new plants, centralization in Switzerland realized
- Global processes defined

- Operational Excellence in main plants completed
- Go-live of new ITsupported processes

- Full additional production capacity available
- Reduction of temporary personnel for investment program 2012 / 2013
- Shift of market-specific functions to expanded sites
- Realization of efficiency gains from process improvements

March 2013

## Strategy implementation: Maintain break-even focus

#### Measures to increase profitability have been initiated

- Reduce break-even after conclusion of investment program 2012 / 2013:
  - Reduction of global workforce by 5% over the next 24 months predominantly in Switzerland through
    - Natural fluctuation
    - Reduction of temporary personnel specifically engaged for the investment program
    - Early retirements and to some extent reduction of permanent staff
- Increase margins in both business groups:
  - Production cost savings
  - Optimal capacity management
  - Price discipline
- Focus on free cash flow by reducing capital expenditures and optimizing inventories

## SIETES

# 2013 Outlook

Erwin Stoller, Executive Chairman

### Summary 2012

#### Rieter: Market position strengthened in a weaker market environment

- Market position improved third half-year in a row with increasing order intake
- Lower sales in 2012, as expected
- Profitability reduced by lower volumes, product mix and margins and the investment program
- Investment program 2012/2013 on track, profitability increase measures released
- Dividend of 2.50 CHF proposed

Results 2012 March 2013. 3

#### Outlook 2013

- Rieter business activities are broadly based worldwide. Heterogeneous market development is expected for 2013. Market development depends amongst other factors also on currency exchange rate developments, consumer sentiment in Europe and North America, fiber consumption growth in Asia, and raw material prices.
- The slight improvement in market conditions in the second semester of 2012 continued in the first two months of 2013. Full-year sales for this financial year are expected to reach at least a similar level as in 2012. As a result, operating profit (EBIT) is expected around 2012 levels before disposal gains. This includes strategic project costs from the investment program 2012 / 2013 of about 20-25 million CHF. Operating profitability in the first semester 2013 is expected to be lower due to less attractive inherent margins in current order backlog. Rieter expects a slightly positive net profit in 2013.
- Investment activity from the finalization of the investment program 2012 / 2013 will lead to capital expenditure of around 35-40 million CHF on top of ongoing replacement demand.
- With the planned finalization of the investment program at the end of 2013, Rieter will again focus on reducing its break-even levels and improving its profitability. As a consequence, Rieter will reduce its total global workforce by 5% over the next 24 months, mainly in Switzerland. This will be achieved through reduction of resources employed specifically for the investment program, natural fluctuation, early retirement and to some extent reduction of further permanent personnel. Additionally, Rieter will focus on improving its margins through continued product cost decreases, optimization of capacity allocation and price discipline.
