Rieter at the ITMA 2015 – System Competence, Innovative Solutions, Excellent After Sales Service

Rieter creates value for customers by system competence, innovative solutions, excellent after sales service and global presence. To the key issues for the competitiveness of spinning mills, the company is offering value-adding innovations at the ITMA 2015. Internet usage for optimising the entire system, new machine generations for preparatory and end spinning as well as corresponding spare parts, after sales services and solutions for the optimal use of the spinning mill along the entire product life cycle were shown.

Our visitors took the opportunity to experience the newest products life on the booth. At this occasion we had many enriching and fruitful discussions with them. Therefore we thank all our numerous customers and guests for your visit and the inspiration you shared with us.

About Rieter

Rieter is the world's leading supplier of systems for short-staple fiber spinning. Based in Winterthur (Switzerland), the company develops and manufactures machinery, systems and components used to convert natural and manmade fibers and their blends into yarns. Rieter is the only supplier worldwide to cover spinning preparation processes as well as all four final spinning processes currently established on the market. With 16 manufacturing locations in ten countries, the company employs a global workforce of some 5 011, about 22% of whom are based in Switzerland. Rieter is listed on the SIX Swiss Exchange under the ticker symbol RIEN. www.rieter.com
