Quality Yarn Supplier

# Rieter Com4® Yarns

Yarns of Choice

## Who is Rieter?

Rieter is an industrial group based in Winterthur, Switzerland, and operating on a global scale. Formed in 1795, the company is a leading supplier of short-staple spinning machinery and technology components, and has the widest product range in this industrial sector worldwide. Rieter has a presence in nine countries with 15 manufacturing locations and a global workforce of some 5 020 employees.

## Rieter – The System Supplier

Rieter possesses a comprehensive know-how of the entire textile process chain. Rieter offers its customers, as the only textile machine manufacturer worldwide, not only complete plants and systems for the 4 production processes – ring, compact, rotor and air-jet spinning – but also experience in the processing of fibers right up to the finished fabric.

## Convincing Yarn Brands – Com4®ring, Com4®compact, Com4®rotor, Com4®jet

The 4 different Rieter spinning technologies produce 4 different yarns – ring, compact, rotor and air-jet yarns, that are different in their yarn structure.

Unique products merit a brand name. The ring yarn spun on Rieter ring spinning machines is marked under the trademark Com4®ring, the compact yarn produced on the compact spinning machine is marketed under the trademark Com4®compact, the rotor yarn from the rotor spinning machine under the trademark Com4®rotor and the air-spun yarn from the air-jet spinning machine under the trademark Com4®jet.

Yarns spun on Rieter spinning machines fulfill the most challenging requirements. Outstanding properties and constant high quality safeguard the competitive edge in a dynamic market. Each of these yarns is distinguished by a special yarn character and its related yarn properties. The yarns have different qualitative or economic advantages, not only for downstream processors but also for end users.

The following listed licensees offer Rieter quality yarns. Based on a license contract our licensees use the possibility to market their yarn under the brand Com4®.

## How to become a licensee?

- 1 Initial requirement – the customer produces with Rieter end spinning machines, such as the ring spinning machine G 32, G 33, G 35, G 36, G 37, G 38 the compact spinning machine K 42, K 44, K 45, K 46, K 47, K 48 the rotor spinning machine R 40, R 60, R 66, R 70 or the air-jet spinning machine J 10, J 20, J 26.

---

- 2 The customer takes up contact with the Rieter sales manager responsible and asks for the relevant license contract for Com4®ring, Com4®compact, Com4®rotor, Com4®jet yarn.

---

- 3 The license contract contains all the criteria to be fulfilled by the customer.

---

- 4 If all the conditions are fulfilled, the license contract is signed according to the agreement reached between the customer and the sales manager.

---

- 5 As official confirmation, the customer receives an appropriate certificate.

---

- 6 From this point in time, the licensee profits from various Rieter marketing activities.
